"I've worked with Shimul for nearly two years now on a wide range of projects, both large and small. In that time I have found in him a great worker, who is always enthusiastic, eager to help, fast and thorough. He's a real problem solver: Shimul brings solutions not problems. He has provided me with some large scale WordPress sites, a lot of customized web solutions, Facebook applications, and several eCommerce platforms.

One thing I really like about working with Shimul is that he brings his expertise into any project he's involved with, and makes sure he understands a project really well first in order to provide superior results.

I can recommend Shimul as a great guy to work with."
